PROFILE

Second-year B.Com (Honours & Research) student and CFA Program Level I candidate targeting equity research and investment banking. Built 19 independent equity valuation models, founded my university's Finance & Research Club, and gained hands-on internship experience in research, financial analysis, and accounting.

EDUCATION

Bachelor of Commerce (Honours & Research) — Amity University, Kolkata *2025 – 2029 (Expected)*
Focus: finance, accounting, investment analysis, and business research.

CFA Program — Level I Candidate — CFA Institute *Target 2027*

Senior Secondary (Class XII) — St. James' School, Kolkata *2025*

EQUITY RESEARCH & VALUATION PROJECTS

- Built 19 company valuation models — Alphabet, Amazon, Apple, Microsoft, NVIDIA, Tesla, Visa, Coca-Cola, Reliance Industries, Hindustan Unilever, Maruti Suzuki, Sun Pharma, Larsen & Toubro, TCS, and Infosys (DCF / SOTP), plus HDFC Bank, ICICI Bank, JPMorgan Chase, and Bajaj Finance (excess-return) — with multi-year forecasts, WACC / cost-of-equity derivation, and sensitivity analysis, deriving an implied value vs. market view for each.
- Designed and published five live, self-updating markets tools (static sites, auto-refreshed daily via GitHub Actions): MarketPulse — 15 world indices with an in-browser Monte Carlo (GBM) simulator; Meridian — sentiment-adjusted DCF/multiples valuation across India, the US, the UK and Japan; Ledger — a public, self-updating track record of every published call with return, alpha and hit rate; Abacus — six browser-based finance calculators; and Tenline — ten fiscal years of any S&P 500 company's fundamentals straight from SEC filings.

EXPERIENCE

Student Equity Research Analyst — Vireo Capital Research **July 2026 – Present**
- Publish long-form equity research on U.S.-listed large caps under the firm's masthead, pairing written notes with DCF, DDM and comparable-company valuation models.
- Initiated coverage of Coca-Cola (KO) with a DDM-led multi-method blend supporting a BUY at a ~$92 target, defending the perpetual-growth assumption across a stated sensitivity band.

Finance Consultant Intern — Prasuta Capital (Prasuta Ventures Pvt. Ltd.) *Summer 2026*
- Authored a 20-page research report on Prasuta Ventures' business verticals and public- and private-market operations, including its partnership with Motilal Oswal Financial Services.
- Completed training on financial products (PMS, investment tools) and research frameworks; supported client-outreach and consulting workflows across retail and HNI segments.

Finance & Accounts Intern — Alpine Distilleries Pvt. Ltd. *Jan – Feb 2026*
- Maintained ledgers and recorded vouchers in TallyPrime, supporting month-end accuracy and reporting.
- Used Excel (lookups, pivot tables) to organise, reconcile, and analyse operational and accounting data.

Business Development Intern — Younity *Nov 2025*
- Supported client-outreach and business-development initiatives; commended by the Founder & CEO for work ethic and initiative.

LEADERSHIP & ACTIVITIES

Founder — Finance & Research Club, Amity University *2026 – Present*
- Founded and lead the university's finance & research club, building its charter, research agenda, and member onboarding from the ground up.

Director — Interact Club, under Rotary International (school) *2024 – 2025*
- Led charitable initiatives including the Festival of Lights; contributed to the club's "Care of Especially Abled" recognition.

Head of Internal Affairs — JACO Model United Nations (school) *2024 – 2025*
- Oversaw logistics, transportation, and delegate coordination for a large-scale MUN conference.

Treasurer — JACO Corp, annual school business event (school) *2023*
- Managed all event finances end-to-end with full accuracy and transparency.

SKILLS

Technical: Financial modelling, DCF valuation, equity research, financial statement & ratio analysis, forecasting.
